9. Life prolonging medical treatments
10. Do you want to donate any organs?

The month of April is a time to reflect. Everyone thinks of “tax day” as April 15<sup>th</sup> but did you know that **NATIONAL HEALTH CARE DECISIONS DAY** is always April 16<sup>th</sup>? April 16<sup>th</sup> falls on Monday this year we are going to provide free Advanced Directives to anyone who would like to have one on

**We will offer free Advance Directives April 16<sup>th</sup>**

**From 10am to 4pm.**

**What is National Health Care Decisions day?** It is a day to decide who you trust to speak for you if you are unable to speak for yourself. This process only takes minutes and is a notarized document that you keep and share with your health care provider so that you are always receiving the care you wish even if you can't explain what you want at the time. On **APRIL 16<sup>th</sup>** we will have free Power of Attorney paperwork for anyone in the community or residents or staff. If you already have an advance directive you should **review** it if you have had life changes like wanting a different Power of Attorney or if you want to change your wishes. We will have tables set up in Central Park to discuss your wishes and give you a document that will give you peace of mind.
